

**Marine Mammal Incident Report 2024**

Through responsible management and best practice operations, we strive to farm our King salmon in harmony with the natural environment and with minimal negative impacts on local wildlife. Although we endeavour to prevent fatalities, they unfortunately can occur.

Marine mammal fatalities are updated to our corporate website within 30 days of the occurrence.

<b>Date</b>	<b>Sea Farm</b>	<b>Marine Mammal</b>	<b>Conservation Status</b>
29/04/2024	Waitata	New Zealand Fur Seal	Not threatened
